Border Forces of Ministry of Internal Affairs of the Islamic Republic of Afghanistan with less personnel and necessary equipment, professional abilities and existing capacities, with excellent spirit and moral is fighting against any form of trafficking, al-Qaeda, terrorism, protects and manages the state borders through the central headquarter in coordination with neighboring countries based on good neighborly relations and international laws. Today we have a good capacity. Despite the war and threat of terrorism we have a good capacity with the efforts of Afghan people and support of international friends, but the new security challenges in Afghanistan and region require the neighboring countries, region and international community to strengthen their cooperation to combat terrorism, drugs and organized crimes and expand their efforts in this regard.
Recently, the enemy with its hostile plans had troubled some provinces, especially the northern provinces of Badakhshan, Takhar, Kunduz, Faryab and Sari Pul to transfer their terrorist bases from their main birthplace to the mentioned provinces. Dear participants:

The fight against terrorism, drug trafficking and better border security is not the duty of one state, it requires a sincere cooperation, coordination and joint efforts.

The countries of region and international communities should cut the roots of terrorism through political pressures and other means. The funds allocated by international community to combat terrorism and drugs should be spent to fight against terrorism and drugs, but not for creating and development of terrorism and drug trafficking.
